Please send all news items, written as concisely as possible, to the Secretary of the Society, Dr. Roger H. Stuewer, School of Physics and Astronomy, University of Minnesota, Minneapolis 55455. The deadline for receipt of news items for the May issue is April 20, and THIS WILL BE THE ONLY CALL FOR NEWS THAT WILL BE ISSUED.

ADVERTISEMENTS IN ISIS

Information on prospective advertisers in Isis should be communicated on a continuing basis to the Editor, Dr. Robert P. Multhauf, Isis Office, Smithsonian Institution, Washington, D.C. 20560.

NOMINATIONS INVITED FOR HSS COUNCIL

Five new HSS Council members will be elected on the 1973 Ballot for three year terms beginning January 1, 1974, and members of the Society are therefore invited to submit nominations for these positions to the Chairman of the Nominating Committee, Dr. John L. Heilbron, Department of History, University of California at Berkeley, Berkeley 94720, by March 31, 1973.

1973 HSS MEETING IN SAN FRANCISCO

The HSS will meet with the American Historical Association in San Francisco in December 1973 (exact details will be published later). The Chairman of the Program Committee is Dr. Frederick B. Churchill, Department of History and Philosophy of Science, Goodbody Hall 130, Indiana University, Bloomington 47401; and the Chairwoman of the Local Arrangements Committee is Dr. Carolyn Iltis, Department of Physics, University of San Francisco, San Francisco, California 94117. Please submit suggestions for the program and local arrangements to the appropriate Chairperson by March 31, 1973.

The Newsletter of the History of Science Society is published in February, May, August and November, with supplements as necessary containing job information. Regular issues are sent free to individual members; supplements are sent automatically to about thirty History of Science Departments and to individuals upon request. Non-members may subscribe to the Newsletter for $5.00 per year. News should be submitted to Dr. Roger H. Stuewer, School of Physics and Astronomy, University of Minnesota, Minneapolis 55455. Other inquiries should be addressed to the Isis Editorial Office, Smithsonian Institution, Washington, D.C. 20560.
XIVth INTERNATIONAL CONGRESS OF THE HISTORY OF SCIENCE

Dr. Frank Greenaway, Secretary-General of the Division of History of the International Union of the History of Philosophy of Science, has announced that the XIVth International Congress in the History of Science will be held in Japan, August 17-27, 1974. The provisional time-table calls for scientific sessions and business meetings in Tokyo, August 17-24, and for symposia in Kyoto on August 26-27. American participation in the International Congress is the responsibility of the United States National Committee of the International Union of the History and Philosophy of Science (USNC/IUHPS). Chairman of the USNC/IUHPS in 1973 is Dr. Melvin Kranzberg (Department of Social Sciences, Georgia Institute of Technology, Atlanta, Georgia 30332); Vice-chairman is Dr. Robert S. Cohen (College of Liberal Arts, Boston University, Boston, Massachusetts 02215); and Secretary is Dr. John G. Burke (Department of History, University of California, Los Angeles, California 90024). The USNC/IUHPS functions under the aegis of the Division of Behavioral Sciences of the National Research Council (2101 Constitution Avenue, Washington, D.C. 20418); Executive Secretary of that Division is Dr. Henry David. Further announcements will be published when they are issued by the Secretary-General of the Union and by the Japanese Organizing Committee of the Congress.

BULLETIN ON TRADITIONAL CHINESE SCIENCE AND TECHNOLOGY

Professor Nathan Sivin, Department of Humanities, Massachusetts Institute of Technology, Cambridge, Massachusetts 02139, plans to disseminate from time to time an informal bulletin to promote liaison between historians, social scientists, and others doing research in this field. The first issue will be a directory of scholars now using Chinese primary sources in research on science and technology in pre-modern China, the traditional sciences (including medicine) in modern China, and the interplay between traditional and modern science. Scholars who feel that they may be qualified for inclusion are therefore requested to send statements of background and current research to Professor Sivin.

CENSUS OF COPERNICUS' DE REVOLUTIONIBUS

Professor Owen Gingerich, Smithsonian Astrophysical Observatory, 60 Garden Street, Cambridge, Mass. 02138, reports that he has undertaken a census of the 1543 and 1566 editions of Copernicus' De Revolutionibus, and he therefore requests that information on obscure or unsuspected locations and on private holdings be communicated to him.

SCHALLENBERG EMPLOYMENT QUESTIONNAIRE

Copies of the final report of the History of Science Employment Survey were distributed at the HSS annual meeting, December 28-30, 1972. Anyone wishing copies of this report should write to Mr. Richard H. Schallenberg, 56 Hillhouse Avenue, New Haven, Connecticut 06520. The report will not be published in the Newsletter, as originally planned, owing to its length.

NSF SUMMER INSTITUTE ON THE HISTORY, PHILOSOPHY, AND SOCIOLOGY OF SCIENCE

Professor William A. Wallace, School of Philosophy, The Catholic University of America, Washington, D.C. 20017 reports that he will direct a National Science Foundation Summer Institute, primarily for college and university science teachers, from June 11-July 20, 1973. Its theme will be "The Nature, Relevance, and
Scope of the Physical Sciences," and a number of distinguished visiting faculty will contribute to it. Stipends are available, but applications must be postmarked by February 15, 1973. For further information, write to Professor Wallace.

SUMMER EUROPEAN TRAVEL—STUDY COURSE IN HISTORY OF CHEMISTRY

Professor John H. Wotiz, Department of Chemistry and Biochemistry, Southern Illinois University at Carbondale, Carbondale, Illinois 62901, reports that he will conduct a nine week, six quarter-credit travel-study course in Europe this summer (June 14-August 16) on "The Evolution of Chemistry." The course will feature guest lecturers abroad, it will be limited to about 20 participants (students, high school and college teachers), and its entire cost will be about $1385, with the final payment being due on April 15, 1973. A similar course which he conducted in 1971 has been described in the Journal of Chemical Education, 49 (1972), 593-6. For further information write to Professor Wotiz.

SYMPOSIUM IN HONOR OF RICHARD H. SHRIOCK AT UNIVERSITY OF WISCONSIN, MADISON

Richard H. Shryock's contributions and historiography will be honored during a day-long symposium to be held April 7, 1973. The meeting is being organized by Professor Guenter B. Risse of the Department of History of Medicine in collaboration with the History Department and Shryock's long time friend, Professor Merle Curti. Mrs. R. O. Shryock is expected to attend. The papers to be presented deal with various topics of American social medical history in Professor Shryock's tradition: Merle Curti, "Personal recollections and Shryock's social history of medicine"; Whitfield J. Bell, Jr., "Richard H. Shryock: life and work of a historian"; Charles M. Rosenberg, "The role of the dispensary in medical care and education during the 19th century"; Barbara G. Rosenkrantz, "Early use of diphtheria anti-toxin in the U.S., 1890-1910"; Saul Benison, "Poliomyelitis and the Rockefeller Institute: social effects and institutional response"; and John C. Burnham, "Physician's loss of professional status: paramedical personnel in 20th century American psychiatry."

NEBRASKA SESSION ON NINETEENTH CENTURY SCIENCE

A session entitled "Method in Nineteenth Century Science" will be held on Friday, March 9th, at 11:00 A.M. and featured as part of the Missouri Valley History Conference, Prom Town House Motor Inn, Omaha, Nebraska, March 8-10, 1973. Papers will be presented by H. Lewis McKinney ("The Structure of Darwin's Origin (1859)"), Harold I. Sharlin ("William Thomson's science as a theoretical context for technology"), and Jerry Stannard ("Bibliography, Methodology, and Nineteenth Century Botany"). Following the session a caucus will be held to discuss the plausibility of significantly expanding the program of this Conference in the area of history and philosophy of science and technology. Further information may be obtained by writing the Program Chairman, Professor Dale Gaeddert, Department of History, University of Nebraska at Omaha, Omaha 68101.

COLLOQUIA COPERNICANA IN POLAND

The inaugural session of the International Astronomical Union's Extraordinary General Assembly will take place in Warsaw on September 4, 1973, and will include a commemorative lecture on Copernicus by Professor Owen Gingerich, Smithsonian Astrophysical Observatory, 60 Garden Street, Cambridge, Mass. 02138. On September 7 and 8 there will be a Joint Symposium (Colloquia Copernicana) of the IAU and
the International Union of the History and Philosophy of Science (IUHPS) in Torun, where the tentative program calls for review papers by W. Hartner, O. Pederson, and E. Rosen, as well as shorter papers by D. King, E. Poulle, G. Rosińska, J. North, F. Krafft, Z. Horský, W. Petri, N. Swerdlow, J. Dobrzycki, D.J.K. O'Connell, Ms. Zaleska, and T. Przypkowski. Further information may be obtained from Professor Gingerich.

COMMENORATIVE COPERNICUS CONFERENCE IN LOS ANGELES

A two-day Commemorative Copernicus Conference will be held at the University of California, Los Angeles on November 1-2, 1973 under the sponsorship of the UCLA Department of History, the UCLA Center for Medieval and Renaissance Studies and the National Copernicus Committee, Southern California-Arizona area. Nine invited papers will be read. The Conference will explore the historical background to Copernicus' work as well as the subsequent assimilation and influence of his ideas with the intention of providing the opportunity for the expression of new viewpoints and new evidence in Copernicus scholarship. Further information may be obtained from Professor Robert S. Westman, Department of History, 405 Hilgard Avenue, U.C.L.A., Los Angeles, California 90024.

NICOLAUS COPERNICUS 500th ANNIVERSARY CELEBRATION IN OTTAWA

The Royal Society of Canada, in cooperation with the National Library and the National Arts Center, is planning to celebrate the 500th anniversary of Nicolaus Copernicus with a one day event on November 28, 1973, in Ottawa. The morning program will feature a symposium on the theme "Where do we go?" which will include an introductory talk on "Copernicus, Scientist and Man," and talks by four prominent members of the Society (a statesman, scientist, philosopher and a writer) on basic questions concerning the future of mankind in the context of present changes and doubts. The texts will appear in a special publication by the Society. In the afternoon, a major exhibit on Copernicus prepared by the National Library will be opened. In the evening, there will be a solemn concert in the Opera House of the National Arts Center in which a musical work, "Nicolaus Copernicus," commissioned by the NAC and composed by a leading Polish composer, Tadeusz Baird, will be presented. All arrangements are being made by a special committee set up by the Royal Society of Canada.

CONFERENCE ON TECHNOLOGY AND SOCIETY IN EARLY AMERICA

Dr. Jacob Judd reports that technology and society in early America will be the theme of a conference sponsored by Sleepy Hollow Restorations of Tarrytown, New York, on April 27-28, 1973. "America's Wooden Age" will be the subject of papers and commentaries by Silvio Bedini, Carl Bridenbaugh, Charles Carroll, Eugene S. Ferguson, Charles Howell, Louis C. Hunter, David Smith, and Nathan Rosenberg. For further information write to America's Wooden Age, Sleepy Hollow Restorations, P.O. Box 245, Tarrytown, New York 10591.

ANNUAL MEETING OF CHEIRON

The 5th Annual Meeting of Cheiron: The International Society for the History of the Behavioral and Social Sciences will be held at State University, College of Arts and Science, Plattsburgh, New York, and Valcour Educational Conference Center from June 7-10, 1973. Papers will be considered which deal with aspects of the history of any of the behavioral and social sciences, with relevant
historical or social science methodology, or with the philosophy of history as applied to the study of the history of the behavioral and social sciences. The emphasis of the meetings will be interdisciplinary. Address submitted papers or requests for additional information to Dr. Noel W. Smith, Department of Psychology, State University, College of Arts and Science, Plattsburgh, New York 12901.

CENTENNIAL MEETING COMMEMORATING FOUNDOING OF ANDERSON SCHOOL OF NATURAL HISTORY BY LOUIS AGASSIZ

A week-long meeting is being planned to commemorate Louis Agassiz and his Anderson School of Natural History at Penikese Island on the 100th Anniversary of its founding. Meetings at Woods Hole and on Penikese Island, Cape Cod, Mass., 13-18 August 1973 will be devoted to the historical importance of Agassiz and his School (organizer H. L. Burstyn), and to an in-depth study of island biology (organizer E. O. Wilson). A field trip (organizer J. S. Rankin, Jr.) to Penikese Island will be made to continue the work of previous anniversary trips in 1923 and 1947. Those interested in attending this centennial observation should write for further information and an application form to Dr. Donald J. Zinn, General Chairman of the Committee on Arrangements, Department of Zoology, University of Rhode Island, Kingston, R. I. 02881.

SYMPOSIUM ON ARCHAEOLOGY OF METAL IN EARLY AMERICA

There will be a special symposium on the history, archaeology, and preservation of early metal at Bear Mountain, New York, on Saturday, April 14, 1973. Those wishing to attend, or to present papers, should write to: Edward F. Heite, 21 South Main St., Camden, Delaware 19934.

1974 SYMPOSIUM ON FAR WESTERN AGRICULTURAL HISTORY

Morgan Sherwood, Agricultural History Center, University of California, Davis 95616, reports that the theme for a three day symposium to be held on the Davis Campus in June 1974 will be "Agriculture in the Development of the Far West." The symposium is being sponsored by the University, the U.S. Department of Agriculture, the Agricultural History Society, and other institutions; and the resulting papers, which will deal with how agriculture has been involved in western development (land, water, technology, labor, marketing, policies, resources for historical study, etc.), will be published in a special issue of Agricultural History. General and specific suggestions for the program are invited.

D. J. DAVIS MEMORIAL LECTURE

The 30th Annual D. J. Davis Memorial Lecture in Medical History will be given at the University of Illinois College of Medicine, 817 South Wolcott Avenue, Room 106, Chicago, Illinois, on Wednesday, the 11th of April, 1973, at 1:00 p.m. The lecturer is Dr. Robert P. Hudson, Chairman, Department of the History and Philosophy of Medicine, The University of Kansas Medical Center, who will speak on "Do Diseases Die?"

OTHER LECTURES

Professor Benjamin Nelson, Graduate Faculty, New School for Social Research, New York, N.Y., reports that on April 3, 1973, he will deliver a lecture on "The
Works of God's Hand: The Books of His Revelations and the Machinery of Nature" at the Boston Colloquium for the Philosophy of Science. For information on his other recent lectures, write to Professor Nelson.

Professor Guenter B. Risse, Department of History of Medicine, University of Wisconsin, Madison 53706 reports that on February 21, 1973, Professor Glenn A. Sonnedecker will present a multimedia lecture on "Reflections of pharmacy in music and the visual arts" in the William Snow Miller Medical History Seminar. For information on other recent Seminar lectures, write to Professor Risse.

WANGENSTEEN HISTORICAL LIBRARY DEDICATED AT UNIVERSITY OF MINNESOTA

The Owen H. Wangensteen Historical Library of Biology and Medicine was dedicated at the University of Minnesota on November 21, 1972. Brief speeches were delivered by Dr. Leonard G. Wilson, professor of the history of medicine, Mr. Glenn Brudvig, Biomedical Librarian, Mr. John Yngve of the Board of Regents of the University, Dr. Lyle French, vice-president for Health Sciences Affairs, and Dr. Malcolm Moos, President of the University, who presented a citation to Dr. Wangensteen. In recent years, Dr. Wangensteen has been the driving force behind the development of the historical collections in biology and medicine at Minnesota into an outstanding library of more than 20,000 volumes, and in addition he has been largely responsible for securing required staff and library facilities in Diehl Hall. The library collections are particularly rich in American medicine, anatomy and surgery, ophthalmology, and cardiology; and there is a fine collection of 16th century herbals and of writings by and about Linnaeus, as well as broad general representation of early medical and biological works.

NEW COURSE IN HISTORY OF TECHNOLOGY

Professor Jerry Stannard, Department of History, University of Kansas, Lawrence, Kansas 66044, this year helped organize and teach a new course entitled "Technology: Its Past and its Future," which was offered jointly by History and the School of Engineering. The historical relations of technology with the humanities was stressed, and attention was given to the future of different branches of technology and alternative programs for their implementation. Other new courses offered in the history of science program at Kansas are Professor Norriss Hetherington's "History of Astronomy" and Professor H. Lewis McKinney's "Voyages of Exploration and Scientific Discovery: Columbus to the Moon." Professor Robert Hudson is now also teaching a course on "Medicine and Society" which examines topics ranging from suicide to contemporary drug use.

NEW COURSE ON PHYSICS, HISTORY, AND SOCIETY

Professor Harold I. Sharlin, Department of History, Iowa State University, Ames 50010, reports that he and Professor Robert A. Leacock (Physics) this year began teaching a full year course called "Physics, History and Society." The course is for freshmen primarily, and its purpose is to examine some of the basic ideas and theories in physics and history, and to find where these ideas agree or conflict in their view of man and society. The student is asked to decide whether the scientific world view and the humanistic ideal are compatible, and how to deal with possible irresolvable conflicts in today's society. The course can be taken for either history or physics credit, and the students do a minimum of three research papers per quarter. Plans are being made to make this course the foundation of a new cross-disciplinary program at Iowa State University. For further information write to Professor Sharlin.
SYMPOSIUM ON PSYCHOANALYSIS, PSYCHOTHERAPY AND THE NEW ENGLAND MEDICAL SCENE, 1894-1945

A symposium on the above subject sponsored by the Boston Psychoanalytic Society and Institute, Inc. and the Francis A. Countway Library of Medicine will be held at the Boston Psychoanalytic Society, 15 Commonwealth Avenue, Boston, from April 12-14, 1973. Information on it may be obtained from Dr. George E. Gifford, Jr., Countway Library, Harvard Medical School, 10 Shattuck St., Boston, Mass. 02215. Dr. Gifford has also arranged for the showing of a series of films on "Modern Medicine in Perspective" between January 17-April 25 in Keefer Auditorium of the Boston University Medical Center. Further information on dates and topics may be obtained from him.

HISTORY OF ANTHROPOLOGY NEWSLETTER

Several scholars interested in the history of anthropology and related fields are planning to issue a semi-annual newsletter to serve as a medium of communication for active researchers in this area. It would include information about on-going research, source materials, bibliography, archive collections, discussions of methodology and current publications. Anyone interested in receiving and perhaps contributing to this newsletter should write to either Robert E. Bieder, Department of History, Grinnell College, Grinnell, Iowa 50112; Judy Modell, 2610 Irving Avenue South, Minneapolis, Minnesota 55408; or George W. Stocking, Jr., Department of Anthropology, University of Chicago, Chicago, Illinois 60637.

OFFICE OF TECHNOLOGY ASSESSMENT

Senator Gordon Allott (R-Colo) recently announced that his bill providing for the establishment of the Office of Technology Assessment to assist the Congress in setting the Nation's priorities in science passed both Houses of the Congress and was signed into law on October 13, 1972, to become Public Law 92-484. The basic responsibility of the Office will be to provide objective, independent research and analysis to the Congress at the request of Congressional committees.

SMITHSONIAN INSTITUTION ARCHIVAL ACCESSIONS (BIOLOGY, MINEREOLOGY, WASHINGTON ACADEMY OF SCIENCES)

James A. Steed, Assistant Archivist, announces that the Smithsonian Institution Archives has recently accessioned the papers of Paul Bartsch (1871-1960), curator of the Division of Mollusks, United States National Museum (USNM), 1904-1950; of E. Yale Dawson (1918-1966), curator of the Department of Botany, USNM, 1934-1966; of Wallace R. Ernst (1928-1971), curator in the Department of Botany, USNM, 1956-1971; Joseph Ashmead Clay (1806-1881) and John Randolph Clay (1808-1885), collectors and mineralogists, 1841, 1859-1866; as well as the records of the Division of Birds, USNM, 1874-1959; of the Division of Entomology, USNM, 1886-1961; and of the Washington Academy of Sciences, 1888-1968. They are also currently processing the records of the National Zoological Park, 1887-1965.

NATIONAL HISTORIC CIVIL ENGINEERING LANDMARKS

The American Society of Civil Engineers recently announced that the following structures have been designated as NHCE Landmarks: (1) the Brooklyn Bridge, completed 1883; (2) Cabin John Aqueduct, Montgomery County, Md., built between 1857-1864; (3) Cheshbrough's Chicago Water Supply System, constructed between 1864-1869; and (4) Roebling's Delaware Aqueduct between Lackawaxen, Pa.,
and Minisink, N.Y., built in 1847-1848. Further information may be obtained from the ASCE office, 345 East 47 Street, New York, N.Y. 10017.

AWARDS AND HONORS

Carolyn Eisele, Professor Emeritus in Mathematics at Hunter College of CUNY, has been elected President of the Charles S. Peirce Society. Her edited version of The New Elements of Mathematics by Charles S. Peirce in five volumes is being published within the year by Mouton Publishers of The Hague, The Netherlands.

George B. Kauffman, Professor of Chemistry, California State University, Fresno 93710, has been awarded a John Simon Guggenheim Memorial Foundation Fellowship for 1972-73 for work on a historical-chemical study of Alfred Werner's Coordinate Theory.

FELLOWSHIPS AND GRANTS

H. Lewis McKinney (University of Kansas) has been awarded an ACLS research fellowship to work on a biography of Alfred Russel Wallace beginning in September 1973.

Out of 603 eligible applicants, NEH recently awarded 101 Senior Fellowships totaling $1.8 million.

APPOINTMENTS AND PROMOTIONS

Norris Hetherington has been appointed Assistant Professor in the Department of History at the University of Kansas.

Thomas Parke Hughes has been appointed Professor of the History and Sociology of Science at the University of Pennsylvania. Professor Hughes is the author of the prize-winning biography of Elmer Sperry, and is currently at work on a history of the electric light and power industry, especially in Germany and the United States.

H. Lewis McKinney has been promoted to Associate Professor in the Department of History at the University of Kansas.

A. I. Sabra has been appointed Professor of the History of Arabic Science at Harvard University. He is a member of the departments of the History of Science and Near Eastern Languages and Literatures in that University.

DISSERTATIONS IN PROGRESS OR RECENTLY COMPLETED

Note: If available, please supply the Dissertation Abstracts reference number in the future when submitting announcements on dissertations completed.

**Johns Hopkins University**

Caroline Hannaway, "The Société Royale de Médecine and Public Health in the Ancien Régime" (in progress).

Dorian B. Kottler, "Jean Senebier, Photosynthesis and the Chemistry of Light" (in progress).

Martin Kalmar, "Theories of Collision in the Seventeenth Century" (in progress).

Philip Rehbock, "Edward Forbes" (in progress).

University of Kansas

Paula Gottdenker, "In the Beginning: Approaches to the Problem of the Origin of Life, Antiquity to the 1920's" (in progress).

Terry Reynolds, "Science and the Waterwheel: The Development and Diffusion of Theoretical and Experimental Doctrines on the Vertical Waterwheel, c. 1650 to c. 1850" (in progress).

University of North Carolina, Chapel Hill

Ralph C. Bowden, "An Analysis of Lord Kelvin's Scientific Career" (completed).

COMMITTEE ON WOMEN IN THE HISTORY OF SCIENCE

A growing self-awareness of the history of science as a profession has led to the establishment of a number of studies and committees on various aspects of the Society and the field in general. At the December 1972 meeting of the Council of the History of Science Society, a committee was established to study the status of women in the profession. The committee is interested in recognizing long established contributions by women to the field, and in identifying women currently engaged in work relating to the history of science. It also plans to prepare a roster of women in the profession. A report on the status of women in the history of science will be made to the Society on or before the 1973 annual meeting in San Francisco. All women in the profession are asked to return the enclosed questionnaire to the committee as soon as possible and to aid in identifying other women not receiving this Newsletter. The committee consists of Carolyn Iltis, Department of Physics, University of San Francisco, chairwoman; Judith Grabiner, Small College, Dominguez Hills, Calif.; Margaret Rossiter, Charles Warren Center for American History, Harvard University, Cambridge, Mass.; Michael M. Sokal, Department of History, Worcester Polytechnic Institute, Worcester, Mass.; Charles Rosenberg, Dept. of History, University of Pennsylvania, Philadelphia, Pa.; and Barbara Rosenkrantz, Department of the History of Science, Harvard University, Cambridge, Mass.

(Questionnaire is on page 11.)
REQUEST FOR JOB INFORMATION

Individuals in colleges, universities, and other institutions having knowledge of possible or definite job openings for 1973-74 are urged to relay such information to the Secretary, Roger H. Stuewer, as soon as possible for publication in the Newsletter. Such sharing of job information is consistent with the general sentiment that members of the HSS expressed on the desirability of open listing of available positions.

JOBS NO LONGER AVAILABLE

The following positions listed in Volume I, Number 4 (November, 1972) of the Newsletter either have been filled or have been withdrawn for lack of funds:

8. Rutgers University.
11. University of Utah.

If members of the Society know of other positions that are no longer available, please inform the Secretary of these positions as soon as possible.

JOBS ADVERTISED IN RECENT NEWSLETTER SUPPLEMENTS

The following positions were advertised in Supplements 1-3 of Volume I, Number 4 (November, 1972) of the Newsletter:

1. State University, Binghampton, New York 13901. The following entry appeared on p. 38 of the October AHA Professional Register: "In anticipation of new faculty lines for 1973-74 applications are invited in the following fields. Rank and salary open. Candidates must demonstrate high scholarly capacity preferably along lines of behavioral science approach and ability to develop innovative undergraduate courses. Medieval Mediterranean (Arabic-Jewish-Byzantine-Iberian); Latin American (Brazil; cultural and social); East Asia (China before 1800; Japan; India; cultural); history of technology; psychohistory; historical sociology." Presumably contact Chairman, Department of History.

2. Program in American Studies, University of Minnesota, Minneapolis 55455. Core position in American Studies at rank of professor or associate professor, beginning September 1973. Particularly interested in person who would strengthen program in presently under-staffed area. For example, do not need more staff in most branches of political or intellectual history, but would be interested in someone in history of technology; do not need more staff in most branches of American literature, but would be interested in someone in popular culture. Chiefly interested in interdisciplinary scholar-teacher; administrative talent and experience desirable but not a requirement. Program offers B.A., M.A., Ph.D. degrees and draws on all-university faculty. The University of Minnesota has an affirmative action program for equal employment opportunity. Contact Chadwich Hansen, Chairman, Search Committee. Further information may also be obtained from Roger H. Stuewer.

3. University of Texas at Austin, Austin 78712. Position: Assistant Professor; all requirements for Ph.D. must be completed by August 1973.
Description: Will be hiring someone in American History; slight possibility that the area of specialization could be in American Science and/or Technology.
Contact: Professor Clarence Lasby, Acting Chairman, Department of History.

Description: It is desirable that the prospective candidate be knowledgeable not only in the natural sciences but also in an area such as the history of science,

(Continued on p. 13)
QUESTIONNAIRE ON WOMEN IN THE HISTORY OF SCIENCE

All women in the history of science are being asked to complete the following questionnaire, and by simply removing the sheet, folding it, and stapling it, return it to Dr. Margaret Rossiter.

Please comment as extensively as you care to in answering the questions.

I. Name ____________________________ Presently employed? (Yes, No)____
Address ____________________________________________________________
Undergraduate ______________________________________________________
Graduate Training (university, degree expected, year, field) ____________________________

II. If currently employed:
1. At what type of institution are you located—e.g., secondary school, two-year college, four-year university, library, museum, research institute, etc. ____________________________
2. Full or part-time? ______
3. Does your institution offer academic tenure? ______
4. If so, are you tenured? ______
5. If not, can your position lead to tenure? ______
6. Would you prefer to be employed at another type of institution? ______
7. If so, what type? __________________________________________

III. If unemployed:
1. Are you presently seeking employment? ______
2. If so, what problems have you met? (Attach separate sheet if necessary.) ____________________________

IV. Professional Activities. (Attach separate sheet if necessary.)
1. Research, teaching, and interests: ____________________________
2. If you are teaching, are your courses related to your research interests?
3. Publications and professional presentations (papers read, sessions chaired, etc.). Summarize if extensive. ____________________________
4. Have you ever been an officer or committee member in any professional organization? ______
5. Other professional recognition (prizes, awards, invited papers, etc.). ____________________________
6. Are you interested in the role of women in science? ______ Please indicate any research you are conducting on women in science or the history of women in science. ____________________________

V. Please supply the names of any other women in the history of science who are not listed in the Isis directory. ____________________________

VI. Comments, complaints, and suggestions. (Attach separate sheet.) ____________________________

philosophy of science or science and public policy. The nature of Briggs College is such that the Dean should be deeply interested in undergraduate education, interdisciplinary and integrated approaches to curriculum development and innovative teaching techniques. In addition, since Briggs is a residential college and not departmentally organized the Dean must be able to work closely with such diverse groups as: faculty, students, deans, residential hall management staff and the Office of Student Affairs. Of particular importance are the following criteria: (1) the interest and ability to work with students; (2) the ability to work with faculty from a variety of backgrounds in both the arts and science; (3) substantial teaching and research experience; and (4) the ability to work with the university administration combined with a sensitivity to the need for accountability in the environment of the contemporary university.

Contact: Professor Steven T. Spees, Chairman, Dean's Selection Committee, by January 15, 1973, if possible.

Position: Director of Women Studies.
Description: Appointment is half time administrative, half time in an academic department of the College of Arts and Sciences. Senior person only with evidence of creative work in Women Studies; must be eligible for tenure in an academic field.
Contact: Donna Gerstenberger, Professor of English, Chairperson, Women Studies Search Committee.

Position: Assistant Professor, starting September 1, 1973.
Description: Prefer mathematician with training in history of science or math and with teaching experience. Usual fringe benefits.
Contact: Donald S. Allen, Director, Division of Science and Mathematics.

N.B. The last two positions were listed in the November 1972 issue of "Employment Information for Mathematicians," published by Mathematical Sciences Employment Register, P. O. Box 6248, Providence, R.I. 02904.

NEW JOB OPENINGS

The following new positions have come to the attention of the Secretary:

1. University of Kansas, Lawrence 66044.
Position: Visiting Assistant or Associate Professor. Ph.D. required.
Description: Historian of biology, preferably with some experience, who can teach (1) the biological part of a survey in the history of science, (2) a survey in the history of biology --one or two semesters, (3) a course each semester on history of some aspect of biology, etc. This is flexible.
Contact: Prof. H. Lewis McKinney or Prof. Jerry Stannard, Dept. of History.

Position: Assistant or Associate Professor, possibly Full Professor.
Description: Historian of science or technology, but candidate cannot be a specialist in U.S. history. Will probably hire a Europeanist, but are willing to consider historian with special interest in some part of the Orient or Latin America.
Contact: Prof. David Joravsky, Chairman, Search Committee, Dept. of History.

Position: Assistant or possibly Associate Professor.
Description: Historian of science, but candidate should have a philosophical approach to the subject and should also have substantial knowledge of contemporary science.
Contact: Prof. Stanley W. Newberger, Chairman, Dept. of Philosophy.
