The History of Science Society's annual meeting will be held at the University of Wisconsin-Madison on the weekend of October 27-29, 1978. Professor Daniel M. Siegel, University of Wisconsin at Madison, is in charge of local arrangements. A copy of the tentative program and notice about accommodations will be included in the July HSS Newsletter.

The ballot for 1979 officers of the History of Science Society will be mailed in the July Newsletter so that the results can be tabulated before the annual meeting, held this year in late October. Frederick Churchill has announced that a slate of candidates will be finalized by mid-April with two nominees for every position; his committee has worked to present a balanced slate. Persons who wish to learn the names of nominees may contact Professor Churchill, 130 Goodbody Hall, Indiana University, Bloomington, Indiana 47401. Additional candidates may be nominated through the regular petition procedure, which requires fifteen members' signatures. The deadline for additional nominations is May 15, 1978.

Nominations for the Sarton Medal for 1979 are invited by the Executive Committee. Please send nominations with a justification to the President, Richard S. Westfall, 130 Goodbody Hall, Indiana University, Bloomington, Indiana 47401, for consideration with others at the next meeting of the Council. The Sarton Medal is not confined to Americans. It is awarded to scholars from any country who have made distinguished contributions to the history of science.

The National Coordinating Committee for the Promotion of History has been voted support by the History of Science Society. The purpose of this Committee is to promote historical studies generally, but especially in schools at all levels, to broaden historical knowledge among the general public, to restore confidence in our discipline throughout our society, and to educate employers in public and private sectors to the value of employing professional historians in nonteaching areas. The Council of the Society believes that our professional interests will be enhanced by this coordinated effort to deal with our problems. We hope that this action will help create an environment in which unemployed colleagues can use their training and talents appropriately. The administration of this program will be located in the Washington office of the American Historical Association. National Resources Groups in a number of general employment areas will be established to provide the National Policy Board with assistance. Resource groups are being established in the following areas: federal government, state and local government, business, agriculture, publishing, state and local historical societies, labor, archives, foundations, media, arts, museums and monuments. There are only two requirements for membership. First, a willingness to work at both the national and state levels to promote history. Second, a willingness to conduct a fundraising campaign and to donate the proceeds to the National Coordinating Committee. We hope that all
members of the History of Science Society will appreciate the importance of this endeavor. Checks, in any amount, made out to the History of Science Society, should be sent to the Treasurer, Arthur L. Norberg, 125 Fairlawn Drive, Berkeley, California 94708.

The death of Chauncey D. Leake, 81, in San Francisco on January 12, 1978 is regretted by members of the Society. Internationally famed as pharmacologist and generally accepted as one of the most significant medical historians of this century, Dr. Leake served as President of the History of Science Society from 1936 to 1938. While at the University of California Medical School in San Francisco, Dr. Leake established the UCSF Department of Pharmacology. He also served as executive vice president of the University of Texas Medical School in Galveston and at Ohio State University as assistant dean and professor. His range of interest and visibility were recognized in his election to the presidency of the American Association for the Advancement of Science, 1960-1966. A member of the American Association of Science Writers, Dr. Leake dedicated himself to popularizing science and medicine not only for his students but for the lay public as well. In the 1920's he wrote popular versions of Harvey's "Circulation of the Blood" and Percival's "Medical Ethics". His scientific research included work on anesthesia and on the development of tranquilizers.

MEETING AND PROGRAM ANNOUNCEMENTS

Proposals for National Science Foundation grants in the History and Philosophy of Science Program may be submitted at any time, but because processing requires about six months, the following schedule is recommended:

<table>
<thead>
<tr>
<th>Proposals Should Arrive by</th>
<th>For Funds Needed in</th>
</tr>
</thead>
<tbody>
<tr>
<td>December 1</td>
<td>June-July</td>
</tr>
<tr>
<td>February 15</td>
<td>September-October</td>
</tr>
<tr>
<td>August 15</td>
<td>January-February</td>
</tr>
</tbody>
</table>

Under a recent policy change, three-year proposals are encouraged where appropriate and up to four- or five-year proposals for senior scholars. Information on all H&PS Program grants is requested by the Senate subcommittee in charge of NSF appropriation (Senator Proxmire, Chairperson). It would be helpful, therefore, if the abstract to the grant application is written in such a way as to indicate the wider significance of the project. Current review panel members are (through June, 1978) Joseph Burchfield and Nathan Reingold; (through June, 1979) Ruth Cowan, Marilee Salmon, Howard Stein, and Linda Wessels; and (through June, 1980) Dorothy Ross, a new appointee for the history of the social sciences. For more information on the program or to submit your name as reviewer, write to Dr. Ronald J. Overmann, Associate Program Director, History and Philosophy of Science, Division of Social Sciences, National Science Foundation, Washington, D.C. 20550.

The Joint Atlantic Seminar will be held at Rensselaer Polytechnic Institute in Troy, New York, on April 7-8, 1978. Among those participating are Paul Bogaard, Richard Hirsh, Katherine Arzina, Thomas Kuhn, David Cahal, George Wise, Robert Friedman, David Thomas, and Paul Forman. There will also be a tour of the General Electric Corporate Research and Development Center, conducted by George Wise. For information and registration forms write: Joint Atlantic Seminar, Department of History, Rensselaer Polytechnic Institute, Troy, New York 12181.

The May Institute in the History of Science to be held May 23-26, 1978, will discuss topics selected from the nineteenth century, with an emphasis on the age of the earth controversy. Please contact Dr. David L. Wagner, Department of Physics, Edinboro State College, Edinboro, Pennsylvania 16444.
The Canadian Society for History and Philosophy of Mathematics will hold its annual meeting with the Canadian Society for the History and Philosophy of Science at the University of Western Ontario, London, Ontario, June 1-2. In addition to research papers in the history and philosophy of mathematics, there will be a session on the teaching of the history of mathematics. Deadline for proposals is May 1, 1978. Contact: Philip C. Enros, Department of History, University of New Brunswick, P.O. Box 4400, Fredericton, New Brunswick, E3B 2T4 Canada.

Second Conference on the History and Philosophy of Science will be held in the Domus Galilaeana of Pisa, Italy, on September 4-8, 1978. Entitled "History of Science and Philosophical Thought", the conference is open to observers, but all papers have been invited. For details write: Professor Evandro Agazzi, Institute of Philosophy, University of Genova, via Balbi 4, 16126 Genova (Italy) or to Professor Jaakko Hintikka, Department of Philosophy, Stanford University, Stanford, California 94305 (USA).

The First Guy L. Leonard Memorial Conference in Philosophy will take place at the University of Nevada, Reno campus, October 29-31, 1978, immediately following the Philosophy of Science Association Biennial Meeting in San Francisco. The conference will be interdisciplinary in scope, and selected philosophers, historians and sociologists of science have been invited to participate on the topic of scientific discovery. Contributed papers pertaining to scientific discovery, innovation, or creativity are also invited. For further information, contact Professor Thomas Nickles, Program Chairman, Department of Philosophy, or Professor Bruce T. Moran, Department of History, University of Nevada, Reno, NV 89557.

The International Society for the Comparative Study of Civilizations (U.S.) will meet at California State University, Northridge, on March 22-25, 1979. Those wishing to contribute papers are invited to send 3 copies of a one-page abstract by October 15, 1978, to the Chairman of the Program Committee, Professor Edmund Leites, Department of Philosophy, Queens College, Flushing, New York 11367.

The Third International Reunion for the History of Nautical Science and Hydrography will be held at the National Maritime Museum, Greenwich, England, immediately preceding or following the 8th International Conference on the History of Cartography to be held in Berlin on September, 1979. The theme will be "500 Years of Nautical Science, 1400-1900." Details available from: The Conference Officer, National Maritime Museum, Greenwich, London SE10 9NF, England.

The Third International Congress on the History of Oceanography will be held September 22-26, 1980, at Woods Hole, Massachusetts. Those interested in participating or scholars working in the area who would like to submit a paper on any aspect of the History of Oceanography should contact Professor Daniel Merriman, Yale University, 298 Sperry Road, Bethany, Connecticut 06525.

The IPN Institute (Institutum Philosophiae Naturalis), located in Princeton, New Jersey, has been formed to encourage theoretical and epistemological inquiries in the physical, natural and social sciences, which because of their unusual scope or method cannot be adequately supported within the confines of a single scientific discipline or traditional funding source. Primarily, the Institute's efforts will take the form of support for research projects, the organization of seminars, and the publication (where warranted) of the results of such work. The Institute owes its original conception and backing to its Executive Director, Princeton-area business-man, Mr. Marc Sanders. Its Associate Director, Dr. Robert Dillon (Ph.D. Anthropology, Columbia University) will be in charge of the development of the Institute's programs and financial support. Among the Institute's Advisory Board members are: Conrad Arensberg (Anthropology, Columbia), Freeman Dyson (Physics, Institute for Advanced Study), Stephen Jay Gould (Evolutionary Biology, Harvard), Thomas Kuhn (History of Science, Princeton), and B.F. Skinner (Psychology, Harvard). Inquiries may be sent to IPN Institute, 20 Nassau Street, Suite 240, Princeton, New Jersey 08540.
The following report on 1977 NSF grants has been developed by Dr. Ronald Overmann of the History and Philosophy of Science Program on actions taken in fiscal year 1977 (October 1, 1976 to September 30, 1977). Applications were submitted by 92 institutions and 3 individuals in 28 states with awards given to 45 institutions in 19 states. Some results for the history of science and technology:

**EDUCATION NOTICE**

The Committee on Undergraduate Education has exhausted its initial supply of the "Library Checklist of Books and Periodicals in the History of Science". Those who request the Checklist after March 5 will receive a copy of the revised 1978 edition in a few weeks. The new edition reports several additional recent books (and increased prices on many older books), and drops titles that are now out of print. Persons residing in the United States may receive a copy for 50¢ (mailing cost) in stamps or coin and an address label from Dr. Stephen G. Brush, Institute for Physical Science & Technology, University of Maryland, College Park, Maryland 20742. Suggestions of out-of-print titles that should be reprinted for use in undergraduate history of science courses are also solicited.

**PUBLICATION NOTICES**

A List of Theses in History of Science in British Universities in progress or recently completed, No 8 (1977-1978), has been published by the British Society for the History of Science. This list is issued free to members of the Society. The charge for non-members and institutions is £1 or $3, post paid from: The Administrator, The British Society for the History of Science, Halfpenny Furze, Mill Lane, Chalfont Street, Giles, Buckinghamshire, HP8 4NR, England.

The American Philosophical Association has published a pamphlet, "Hints for Job Seekers", which contains information helpful to the humanities job candidate. The pamphlet can be obtained by writing the National Office, American Philosophical Association, 31 Amstel Avenue, Newark, New Jersey 0711
Guide to Manuscripts in the History of Psychology and Related Areas. Published by The Wellesley College Colloquium on the History of Psychology, 1977. III + 64 pp. Subject and Repository Indices. Subjects represented include: psychology, psychiatry, psychoanalysis, child development, parapsychology, neurology, mental deficiency and hygiene, university administration and philanthropy (as related to psychology), and philosophical psychology. Available for $2.50 (postpaid) from: Michael M. Sokal, Department of Humanities, Worcester Polytechnic Institute, Worcester, Massachusetts 01609.

Books Received by ISIS: November - December 1977

Louis A. Allaud; Maurice H. Martin, Schlumberger: The History of a Technique. xxv + 333 pp., 86 illus. New York: John Wiley, 1977. $22.50 (Scientific techniques in petroleum prospecting since the 1920s.)

Mea Allen, Darwin and His Flowers: The Key to Natural Selection. 318 pp., illus., bibl., index. New York: Taplinger, 1977. $14.50.

Julius H. Comroe, Jr., Retro Spectro Scope. Insights into Medical Discovery. 182 pp., index. Menlo Park, California: The Von Gehr Press, 1977. $5.00 (paper).

Fritz Krafft (ed.), Mathematik und Naturwissenschaften an der Johannes Gutenberg-Universitat Mainz. Uberblick der Fachbereiche aus Anlass der 500-Jahr-Feier der Universitat (Beitrage zur Geschichte der Universitat Mainz, Band 12.) x + 149 pp., illus., index. Wiesbaden: Franz Steiner Verlag, 1977. DM 42 (paper).

Vol. III: On Intelligence by Hippolyte Adolphe Taine (1875). Facsimile reprint xxxviii + xlv + 614 pp., index.

Series B: Psychometrics and Educational Psychology

Washington, D.C.: University Publications of America, 1977. $25.00 per volume; $630.00 for all 28 volumes. Series A-E ($560.00 prepaid).

Frederick Suppe (ed.), The Structure of Scientific Theories. Second edition. xiv + 818 pp., bibl., index. Urbana: University of Illinois Press, 1977. $22.50 (cloth), $10.00 (paper).

BOOKS RECEIVED BY ISIS: January - February 1978

Juan Arechaga Martinez, La anatomia española en la primera mitad del siglo XIX. (Historia de la medicina y de la ciencia, Colección Monográfica Universidad de Granada, 50.) 244 pp., 21 pls., bibl., index. Granada: Universidad de Granada, 1977. 375 pesetas (paper).

(Morris Berman, Social Change and Scientific Organization: The Royal Institution, 1799-1844. xxv + 224 pp., 28 illus., bibl., index. Ithaca, N.Y.: Cornell Univ. Press, 1978. $17.50.)

Hannah S. Decker, Freud in Germany: Revolution and Reaction in Science, 1893-1907. (Psychological Issues, Vol. XI, No. 1, Monograph 41.) xi + 360 pp., illus., bibl., index. New York: International Universities Press, 1977. $15.00 (cloth), $10.00 (paper).

Elizabeth Flower; Murray G. Murphy, A History of Philosophy in America. 2 vols. xx + 972 pp., name and subject indexes. New York: Putnam, 1977. $75.00 per vol.

Vernard Foley, The Social Physics of Adam Smith. xvii + 265 pp., bibl., index. West Lafayette, Ind.: Purdue Univ. Press, 1976. $11.95.

Luis García Ballester, Medicina, ciencia y minorías marginadas: Los Moriscos, (Historia de la medicina y de la ciencia, Colección monográfica Universidad de Granada, 54.) 164 pp., bibl. Granada: Universidad de Granada, 1977. 300 pesetas (paper).

Albrecht von Haller, Albrecht von Hallers Briefe an Auguste Tissot. Ed. by Erich Hintzsche. 535 pp., illus., bibl., index. Bern: Verlag Hans Huber, 1977. Fr. 128.

Gerald Holton, The Scientific Imagination: Case Studies. xvi + 382 pp., index. Cambridge/London/New York: Cambridge Univ. Press, 1978. $27.50 (cloth), $7.95 (paper).

Gunter Krober; Bernhard Lange (eds.), Sowjetmacht und Wissenschaft, Dokumente zur Wechselbeziehungen in Theorie und Praxis von 800 bis 1900. (Freiburger Beiträge zur Wissenschafts- und Universitätsgeschichte, Band 2.) 481 pp., 27 plates, bibl., name and subject indexes. Freiburg im Breisgau/Munchen: Verlag Karl Alber, 1977. DM 98.

Paolo Manuli; Mario Vegetti, Cuore, sangue et cervello: Biologia e antropologia nel pensiero antico. (Monografie, 7.) 241 pp., Index. Milano: Episteme Editrice, 1977. L. 12,000 (paper).

Judith Mistichelli; Christine Roysdon, Beyond Technics: Humanistic Interactions with Technology. A Basic Collection Guide. v + 58 pp. Bethlehem, Pa.: Humanities Perspectives Program, Lehigh University, 1978. $2.00 (paper).

Anthro-Tech, a new quarterly journal, will deal with the human role in a highly technologized society. Contact Darlene Thomas, Lock Haven State College, Lock Haven, Pennsylvania 17745.

Dissertations in Progress or Recently Completed

Note: If available, please supply the Dissertation Abstracts reference number in the future when submitting announcements on dissertations completed.

University of Montreal

University of Wisconsin-Madison

Albert E. Moyer, "Conceptual Shifts in Late Nineteenth-Century American Physics" (completed).

Visiting Scholar Appointments

The Historian's Office, U. S. Department of Energy, announces the appointment of Dr. Harold T. Sharlin, professor of history at Iowa State University, and Dr. John G. Clark, professor of history at the University of Kansas, as Visiting Scholars for the current year 1977-1978. Dr. Sharlin is now in his second year as a Visiting Scholar, working in the field of electrical energy generation. Dr. Clark is conducting research on the impact of energy development and consumption on midwest metropolitan systems.

Appointments and Promotions

Albert E. Moyer has been appointed Assistant Professor of History of Science in the Department of History at Virginia Polytechnic Institute and State University, Blacksburg, Virginia 24061.

Professor Dr. H. A. M. Snelders has been appointed Professor of History of Science at the Rijksuniversiteit Utrecht, the Netherlands by Her majesty Queen Juliana.

Fellowships and Awards

Rima Dombrow Apple of the University of Wisconsin-Madison has been awarded a Woodrow Wilson Doctoral Dissertation Research Grant in Women's Studies to do research on "Infant Diet in the United States: Alternatives to Breast Feeding, 1870-1940."

B. J. T. Dobbs, Associate Professor of History, Northwestern University, has been awarded a Fellowship for 1978-1979 at the National Humanities Center, P.O. Box 12256,
Research Triangle Park, North Carolina 27709, to study "The Role of Alchemy in Newton's Thought".

Two Andrew W. Mellon Faculty Fellowships in the Humanities at Harvard University for 1978-1979 were awarded for research in the history of science. Linda Voigts, Assistant Professor of English at the University of Missouri-Kansas City, will be preparing a new annotated, critical edition of the 9th-century medical text from the court of Alfred the Great, Bald's Leechbook. Bert Hansen, Assistant Professor of History at the State University of New York at Binghamton, will continue his research on John Dee.

Professor Roger Hahn of the University of California at Berkeley was granted the title of Chevalier des Palmes Academiques on March 28, 1978 by the French government. The ceremony, held at the French Consulate in San Francisco, was in honor of his efforts to promote cultural exchanges between the academic communities of the U. S. A. and France.

**JOB INFORMATION**

Please send information on all possible or definite job openings to the Secretary of the Society, Dr. Sally Gregory Kohlstedt, as soon as possible for publication in the Newsletter. Such sharing of job information is consistent with the general sentiment that members of the HSS expressed on the desirability of open listing of available positions.

The positions listed below are new openings that have been brought to the attention of the Secretary. All inquiries should be addressed to the institution having the opening, and only serious and qualified persons should apply. It is assumed that the positions listed are in fact open at the time of publication. The Society, however, can assume no responsibility for the accuracy or currency of the listing.

1. **Energy Research and Development Administration, Washington, D. C.** Description: Visiting Scholar program for senior research scholars and professional historians to conduct research of their own choosing in the history of energy systems, policies and technologies. Under the newly established Department of Energy, the Visiting Scholar program has been expanded to provide opportunities for scholars to develop college level courses in the history of energy as well as to conduct research projects which may lead to publication. Deadline is April 15, 1978. Contact: Dr. Richard G. Hewlett, Chief Historian, Department of Energy, Washington, D. C. 20545.

2. **Physics Today, New York, New York** Description: Position as full-time Associate Editor. Graduate level physical science background with interest in applied physics to do writing and reporting required of candidate. Contact: Harold L. Davis, Editor, 335 E. 45th Street, New York, New York 10017 or call 212-661-9404.

3. **University of Wisconsin-Madison.** Description: Tenure-track Assistant/Associate Professor in Science Education. Requires doctorate, broad academic preparation in philosophy, biology, chemistry, earth science, physics; demonstrated research capability and interest; proven ability in teaching at the elementary/secondary level. Responsibilities include graduate and undergraduate teaching and advising, supervision of student teachers, productive scholarship and program development. Deadline is April 15, 1978. Contact: John M. Kean, Chairperson, Science Education Search Committee, Teacher Education Building, 225 North Mills Street, University of Wisconsin, Madison, Wisconsin 53706.
Selected Business Meeting Reports and Announcements

(December 28, 1977)

The Secretary of the HSS indicated election results. The low voter turnout (176 ballots) prompted discussion. It was agreed that a note would be placed on the first page of the Newsletter calling attention to the ballot and that each candidate would be permitted a fifty-word statement. Thanks were given to Roger Stuewer for his six years' service as Secretary.

Treasurer Roger Norberg announced that the Council voted to increase dues beginning in 1979 to $26.00 for institutions, $22.00 for regular members, and $13.00 for students and members earning less than $7000 per year. He also outlined plans for the future and management of the Endowment Fund, including the fact that the Treasurer has been authorized by the Council to invest up to 50% of it in cash securities, and that the Finance Committee has been reactivated as an oversight Committee cognizant to financial and ethical issues. One member suggested the possibility of university management of the Fund; another noted that a space should be provided on the dues notice to permit a correction in status, particularly from student to non-student status.

President Westfall announced that the Council voted to continue the Schuman Prize and Sarton Lecture by drawing on funds derived from the Endowment Fund. He noted that all efforts to get in touch with Mrs. Schuman's heirs, or the executors of her estate, had failed to date, but that he would persist, in an effort to at least express the condolences of the HSS on her death in June.

The competition for the annual award of $500.00, established in 1955 by Ida and Henry Schuman of New York City for an original prize essay in the history of science and its cultural influences, is open to graduate and undergraduate students in any American or Canadian college, university, or institute of technology. Papers submitted for the prize competition should be approximately 5,000 words in length, exclusive of footnotes, and thoroughly documented. It is hoped that the prize-winning essay will merit publication in Isis.

The Schuman Prize Committee, which is appointed by the President of the History of Science Society, is this year chaired by Dr. Harold I. Sharlin, Historian's Office, C-478, Executive Secretariat, U. S. Department of Energy, Washington, D. C. 20545. To be eligible for consideration, papers (not more than one from each competitor) should be sent to Dr. Sharlin on or before July 1, 1978. Entries with later postmarks will be returned. It is requested that three copies of each essay be sent and that the names and institutions of the contributors be placed on a separate title page so that they may be removed before being read by members of the Committee. The announcement of the Prize-winning essay will be made at the annual meeting of the History of Science Society, in December.

The Pfizer Award, consisting of a medal and a cash prize of $1,000, was established in 1958 through the generosity of Charles Pfizer and Company, Inc., to recognize and reward "the best published work related to the history of science in the preceding year (in this case 1977) written by an American or Canadian author." The Pfizer Award Committee, which is appointed by the President of the History of Science Society, is this year chaired by Professor Nicholas H. Steneck, Department of History, University of Michigan, Ann Arbor, Michigan 48104. Nominations for the Pfizer Award should be submitted to Professor Steneck by May 1, 1978. The announcement of the Award-winning work will be made at the annual meeting of the History of Science Society, held in December.

The Editor of Isis, Robert Malthauf, noted the publication of the new Directory of Members and Guide to Graduate Study. He also drew attention to ambiguities in the new copyright law, as well as its permissiveness regarding photocopying, which he regards as disastrous for journals like Isis. He also pointed out the cessation of the Isis reprint series.

President Westfall next made a series of announcements. He first noted that the reports of the various HSS committees were impressive, but that the Council felt frustrated in dealing with them in a short time. This in part has led to the creation of a Long-Range Planning Committee to explore future directions and services of the HSS. The 1978 annual meeting will be held in the fall in Madison, Wisconsin, with Sandra Herbert as Program
Chairperson. There has been no decision as yet on the 1979 meeting. The Edinburgh Congress was a success, with over 100 American scholars in attendance (900 people total). Roger Hahn is to be congratulated for his efforts as Chairman of the American Delegation. Only the Symposium papers and abstracts of the contributed papers will be published.

NOTES ON NEWS: The deadline for receipt of news for the July issue of the Newsletter is June 10. Please send all news items, written as concisely as possible to Dr. Sally Gregory Kohlstedt, Department of History, Maxwell School, Syracuse, New York 13210. As new Secretary and Editor of the Newsletter, she is interested in membership opinion about coverage and welcomes suggestions.

The Newsletter of the History of Science Society is published in January, April, July and October, with supplements as necessary containing job information. Regular issues are sent free to individual members. Supplements are sent automatically to about ninety history of science departments and individuals, and will be sent to others on request. Non-members may subscribe to the Newsletter for $5.00 per year.
